2025 Spring Course Catalog

Happy Spring, everyone! I am pleased to share Dan Cosgrove's Graduation speech that he gave during his Certified Nursing Assistant Pinning Ceremony in the Spring of 2024. (This speech has been edited due to space constraints).

The Meaning of My CNA Course

The journey of becoming a Certified Nursing Assistant has been difficult, rewarding and satisfying. I deeply appreciate the efforts and passion of Marcia [Campbell] while she pushed and supported us all to succeed. Her instruction stands at the crossroads of lifelong wisdom, high standards, and genuine compassion for others. Marcia is one of the finest teachers I have ever had. I also extend gratitude to the Oxford Hills/Nezinscot Adult Education program for their classes. OHAE offered us all the opportunity to grow through skill development and excellent class organization.

First and foremost, my CNA course represented an opportunity for personal and professional growth. It symbolized my commitment to learning and my dedication to the care of others. Through rigorous course work and hand-on training, I not only acquired essential skills but also cultivated a mindset of empathy and understanding.

This CNA course also served as a gateway to a fulfilling career in healthcare. With each lesson learned and every skill mastered, I am one step closer to realizing my dream of caring for the critically ill. Whether it's assisting with daily activities, providing emotional support or monitoring vital signs, I am eager to contribute to the physical and emotional care of patients under my watch.

Furthermore, my CNA course holds deep personal significance. It reflects my values of compassion, integrity and resilience. It reminds me of the importance of humility and the power of human connection. As I interact with patients from diverse backgrounds and navigate challenging situations, I am constantly reminded of the inherent dignity and worth of every individual.

Finally, my CNA course represents a profound sense of responsibility. As a future healthcare professional and hopeful nurse, I recognize the trust placed in me by patients and their families. I am committed to upholding the highest standards of care and ethics, ensuring that every interaction is marked by professionalism, respect and kindness.

As I continue my journey towards intensive care of the ritually injured and ill, I am thankful to have this CNA course as my healthcare foundation. Marcia, all my beloved classmates and this CNA course have provided such a wonderful framework for me to start with. I look back with deep gratitude and appreciation while looking forward with optimism and confidence.

Adult Literacy Volunteers & Tutor Training

Find out how rewarding it is to make a difference for an adult learner. You may work individually with a student on math, literacy, or other basic skills, or assist a teacher in an academic lab. Make a difference in someone’s life! Help them learn to read or finish their high school diploma. You can even help someone improve their English language skills.

Please contact us at 207-743-8842 for more information.

About Our Program

Our program offers a wide range of classes and programs in the basic education and ESOL, high school completion, HiSET® High School Equivalency Test, college transitions (college preparation), workforce training, and enrichment areas.

Many programs can be customized for business and industry to meet specific goals. Classes are offered throughout the day, evening, and year-round.

High School Completion/HiSET® /College Advising

Heidi Durgin, our Academic Student Advisor and College Transitions Coordinator, is available to help you complete your high school diploma or obtain your high school equivalency credential by passing the HiSET® exam.

Are you looking to attend college? We can help, by offering Accuplacer testing and college advising to put you on the path to success. Need help finding financial aid for college?

We can provide assistance completing the FAFSA application, finding and applying for scholarships, and applying to the college or trade school to put you on the path to higher education and better employment.

Contact Heidi Durgin
207-743-8842 ext. 1545
to schedule a meeting.

Workforce & Career Advising

Our staff at Oxford Hills / Nezinscot Adult Education will assist you with enrolling in one of our many workforce training programs and can advise you on which college, technical school, or vocational training will best match your skills and potential career field. Are you looking for a new job but need assistance writing a cover letter, putting together a resume, or guidance on how to prepare for an interview? We can guide you through everything you need to be successful in your next job interview.

Contact Aimee Edmunds
207-743-8842, ext. 1541
to schedule a meeting.

Services & Program Offerings

Workforce Training & Certification

As a community partner, we strive to meet the many needs of today's workforce and the challenges they and their employers face. Our program currently offers many in-person certifications including Class A & B Commercial Driver's License and School Bus training, Certified Nursing Assistant & Certified Clinical Medical Assistant certifications, and Reiki certification. We offer a wide-range of in-person and online computer courses. These courses can be taken to gain a certificate credential or broken out into individual courses to reinforce or improve your knowledge.

Our workforce program is growing and developing new trainings to meet the needs of local businesses and industry. If your business has training needs, please contact our office at 207-743-8842 to discuss what we can do for you.

Finance & Assistance

Sometimes financial obstacles prevent us from advancing in life. Let us help you and break through these barriers by finding grants and scholarships to pay for your training. Scholarship assistance may be available to eligible students in need of child care services during class times.

Recently, private entities and government initiatives have poured large sums of easy to access money into workforce training. This money is available to OUR LOCAL BUSINESSES to train your staff for new skills.

Contact our office at 207-743-8842 to find out more information.

Cost is \$10 for the book.

\$50 -1 Week

5/13, 4:00pm-6:00pm

Charissa Kerr

Heat Pump & Solar Panel Technology Training

This grant funded Heat Pump and Solar Panel technology training program is the first of its kind in Oxford County. Students will learn the entry-level skills needed by Local employers in the construction industries for heat pump and solar panel installation, maintenance and repair. Students will train on real-life simulators to simulate working in the field. Tuition Is funded through the Clean Energy Grant. Additional supportive funding may also be available to qualified students. Successful completion of the program means that each graduate will be prepared for entry-level apprenticeship work for local contractors. Students will receive the NCCER Core Certification, the WorkReady Credential, safety training and training on solar and heat pump simulators. Site visits, guest speakers and job interviews will also be arranged as part of the program.

Certified Administrative Professional

To be a successful administrative professional, you must possess the skills to handle a wide variety of workplace tasks and scenarios. The Certified Administrative Professional (CAP) course serves two purposes. First, it prepares you to take the CAP exam offered by the International Association of Administrative Professionals (IAAP). Second, it provides you with a broad selection of essential skills and knowledge to effectively work as an administrative assistant in fields including educational technology, government, and medicine. In this course, you will learn the basics of workplace administration, as well as how to begin and grow a successful career as an administrative professional. The course covers the intricacies of organizational communication, office and records management, and human resource fundamentals, among other topics. You will also learn to effectively write for business, produce documents, and utilize information technology. You will gain event and project management skills, which include virtual meeting coordination. As technology develops, this skill has become increasingly useful. Each course module concludes with a quiz, helping you to effectively track your progress and test your skills. This course includes a voucher which covers the fee for the exam.

Computer Hacking Forensics Investigator (CHFI) (Voucher Included)

Digital forensics is vital to cybersecurity. This online course will prepare you for the EC-Council's Computer Hacking Forensic Investigator (CHFI) Certification exam, a credential that validates your understanding of digital forensic tools and how they are used in the cybersecurity industry. Digital forensics has a key place on every cybersecurity team. Without it, most organizations' security leadership will fail to see its full potential. This course takes a detailed, methodological approach to computer forensic and evidence analysis. You will gain a critical skill set for the identification of an intruder's footprints and gathering necessary evidence for prosecution. The course also includes a voucher with your enrollment, that covers the the certifying exam fee upon eligibility. Scheduling and testing will be available through a remote proctor function.

Career, Technical & Workforce - Online

Video Game Design & Development

Video game design and development is challenging, but the rewards are worth it. With this unparalleled comprehensive training course, you'll master skills that open doors to the growing video game industry. By the end of the course, you will have designed and created your own video game for the PC, and will stand ready to join a team working on projects with larger scope, or pursue independent development. Using a comprehensive and analytical approach to game development, this course offers you the opportunity to learn how to effectively implement technical game ideas, assuming no prior training or experience. The curriculum is divided into four major areas of study: Programming languages, mathematic skills, game asset creation, and modern real-time game engines. It will conclude with an independent study phase which you will design, document, and create your own game using all of the programming and game art skills you learned in the core modules. This course is entirely online and is completed at your own pace.

Academics (*HiSET*® & Diploma)

Pre-registration for classes is necessary.
Call 207-743-8842 for more information.

Academic Lab/ Reading Lab

The Academic Lab is an opportunity for a student working on their diploma to meet with an instructor and continue academic progress toward subject-specific credit.

-Kate Molloy-

Advanced Numeracy & Pre-Algebra

This class continues where Basic Numeracy leaves off. You will review fractions, decimals and percentages, then on to ratios and proportions, and finish with Pre-Algebra.

-Kathleen Beauchesne-

Algebra

This course will review exponential and radical expressions. Then, students will explore and master functions, linear equations, systems, polynomials and quadratic equations. Students must have a knowledge of advanced numeracy to be successful in this class.

-Kathleen Beauchesne-

Astronomy

Students will study objects and matter outside the Earth's atmosphere including their physical and chemical properties, and will utilize the district's access to the observatory.

-Elijah Merrill-

Basic & Advanced Numeracy

Basic and Advanced Numeracy will help to improve your basic arithmetic skills. You will work in a small class on addition and subtraction up through fractions, decimals and calculating percentages. Building on these math functions, you will move on to ratios and proportions, and finish with Pre-Algebra.

-Kathleen Beauchesne-

Academics (*HiSET*® & Diploma)

Pre-registration for classes is necessary.
Call 207-743-8842 for more information.

Biology/Health Sciences

This course will help you build a basic knowledge of human biology and its connection to human health. The focus is upon human anatomy and physiology, common health concerns, nutrition, and their effects upon your overall health.

-Kate Molloy-

Civics

Students will study the rights and duties of citizenship.

-Elijah Merrill-

College Transitions Success

An introduction to the college environment and an opportunity to strengthen the academic skills necessary for success at the community college level.

-Kate Molloy-

Computer Literacy Basics

This required class covers the basic computer competencies necessary for academic credit.

-Kate Molloy-

Current Events

In this class students will digest news stories using various methods, such as news-mapping, graphing, summarizing, and editorializing, with the goal of making the news more relevant to students. News happens!

-Elijah Merrill-

Elements & Principals of Art

This elective class will provide students with an opportunity to appreciate works of famous artists through the lens of Art Elements and Art Principles. Students will also represent these art concepts through independent projects.

-Kathleen Beauchesne-

English Composition I & II

Students work on two longer pieces of writing over the course of the semester. This course is individualized to meet the specific needs and interests of the student.

-Kate Molloy-

Academics (*HiSET*® & Diploma)

Pre-registration for classes is necessary.
Call 207-743-8842 for more information.

Financial Literacy

Students will learn the skills needed to make smart money management decisions for real life.

-Kate Molloy-

Fine Arts for Academic Credit

Students will discuss and complete a fine arts project with guidance from the instructor.

-Kathleen Beauchesne-

Geometry

Study the relationships among angles, polygons and 3D solids. You will practice these objectives through various lessons, skill practice and applications.

-Kathleen Beauchesne-

U.S. History I & II

The social, political and economic development of the United States from the Civil War Period through the mid 1900s is covered.

-Elijah Merrill-

Lifetime Pursuits

This elective class will provide multiple opportunities for students to engage in an active lifestyle. Let's go for a long walk, or take a short hike up to a scenic overlook. One class may be a bike ride. In another class we may try hitting golf balls! Students will receive diploma credit while trying out activities that they may love for their lifetime.

-Kathleen Beauchesne-

Math Diploma Lab

This course will help students improve their basic arithmetic skills. Students will work in a small class setting on addition and subtraction, multiplication, and division of whole numbers. Students will then study fractions, decimals, and percentages.

-Kathleen Beauchesne-

Academics (*HiSET*® & Diploma)

Pre-registration for classes is necessary.

Call 207-743-8842 for more information.

Music History

Music is in every known culture, past and present, varying widely between times and places. The emotions and ideas that music expresses, the situations in which music is played and listened to, and the attitudes toward music is played and composers all vary between regions and periods. Specific periods will be discussed based on student interest.

-Elijah Merrill-

Reading Lab

The primary goal of this course is to spark a love of reading within students. As a class, we will explore books of different genres and authors, styles and lengths until each student finds the one that interests them. The secondary goal is to introduce students to book discussion and light analysis.

-Elijah Merrill-

-Kate Molloy-

Science with Lab

Topics covered during this class will be determined based on individual student need for academic credit.

-Elijah Merrill-

-Kate Molloy-

Woodshop for Academic Credit

Woodshop isn't just a shop in which things are made from wood. Materials + effort = the stuff self-esteem is made from. Let's discover your potential.

-Elijah Merrill-

World History

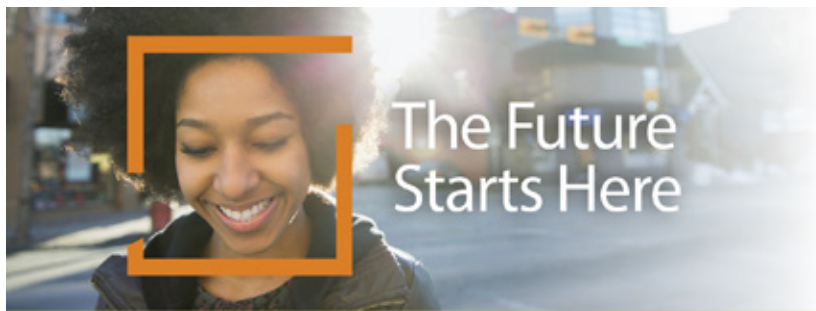

Location, place, human-environment interaction, movement and region (the 5 themes of Geography) are applied to the study of the creation of the earliest human civilizations (The River Valley civilizations).

-Elijah Merrill-

Enrichment & Special Interest

Artificial Intelligence & Machine Learning Suite

Course is online through a partnership with ed2go.com. This course bundle will provide you with a foundation of practical knowledge on artificial intelligence (AI) and machine learning. You will begin with the science behind AI computer systems, which can perform tasks that typically require human intelligence, and AI ethics, applications, and more. Then you will move on to a more thorough look at machine learning, the problem it is trying to solve, and specific techniques and applications used in supervised, unsupervised, and semi-supervised learning.

Narcan Training

Narcan (also known as naloxone) is a safe and easy-to-use medication that reverses overdoses, including those caused by fentanyl. Fentanyl is commonly found in cocaine, opioids, and methamphetamine, as well as counterfeit prescription pills (e.g., fake Adderall). Narcan has saved the lives of thousands of Mainers. Participants will learn about how to recognize and respond to a suspected overdose, including how to administer Narcan. We will discuss what happens to a person's body during an overdose and how Narcan works. Instructors will break down, step by step, how to administer intranasal Narcan.

Finance Authority of Maine

**Virtual workshop program
offered by College Access and
Financial Education team at the
Finance Authority of Maine.**

Adulting 101: For the Love of Money

Adulting is tough. Finances can be one of the trickiest parts of adulthood. Whether you've been Adulting for decades or are just getting started, banking basics, spending plans, credit scores and budgeting tools are available to make things a little bit easier. Join Steve Kautz, Financial Education Programs Specialist from the Finance Authority of Maine for this 1-hour virtual workshop as we explore fundamental money skills.

2/12, 6:30pm

Adulting 102: Money Grows

So, you're on a budget, managing a bank account, and wondering about the next steps in your financial journey. In Adulting 102, we will look at the differences between saving and investing, and if you are ready to invest, how to get started. Other topics will include protecting your assets (insurance), advanced budgeting, and understanding the role economics plays in our financial life. Join Steve Kautz, Financial Education Programs Specialist from the Finance Authority of Maine for this 1-hour virtual workshop as you take the next steps into adulting.

3/19, 6:30pm

Successful Scholarship Searches & Applications

Scholarships can go a long way in helping students cover college costs, but being successful in the scholarship application process can take some work. In this session you'll learn to build and work your own scholarship application plan. You'll also learn about and try out different scholarship websites, learn how to best use a scholarship information tracker, and learn to avoid some of the challenges of the scholarship process. Students and parents interested in learning about the scholarship process can join Jessica Whittier, College Access Counselor with the Finance Authority of Maine for this 1-hour workshop as we talk scholarships.

2/26, 7:00pm

Finance Authority of Maine

Planning & Paying for College

Do you have children who will be looking at college in the next few years or might you be thinking of returning to school yourself? Now is a great time to start thinking about the college financial aid process and ways to boost college savings. The earlier you start, the more confident and relaxed you will feel when it is time to apply for financial aid. Join Michelle Radley, College Access Counselor with the Finance Authority of Maine for this 1-hour workshop as we talk all things paying for college.

3/5, 6:00pm

Spring Into College Savings: The Alfond Grant & Maine's College Savings Program

Joining us — College Savings Superstar Alfond Foundation member, Caroline Palmatier Maine families have access to two valuable programs to assist with saving and paying for education after high school: the \$500 Alfond Grant and Maine's College Savings program. While these initiatives offer great benefits, understanding each of their features can sometimes be challenging. Whether you're a parent, guardian, or student, this session will provide you with information to make the most of these valuable resources. Join us to improve your understanding and take steps towards a successful educational future!

4/2, 7:00pm

Student Loan Repayment Strategies & Pro Tips

There are many different facets to the student loan program that can be powerful in helping you achieve your financial goals but also can be confusing. If you are struggling with your payments, did you know there are several income-based repayment plans as well as deferment or forbearance? Did you know you could get .25% off your interest rate if you sign up for auto-debit on your federal loans? Do you know you can work towards loan forgiveness now if you work for a non-profit, government or tribal agency? Whether you have recently graduated from college or have been repaying your students loans for a long time, join us to learn how to best manage your student loan repayment. Join Nikki Vachon, College

5/7, 6:00pm

Putting the Literacy in Financial Literacy: Book Club with FAME

Join FAME's College Savings Counselor, Maire Pelletier, in exploring **Girls That Invest by Simran Kaur**. This course is a great introduction to investing. All experience levels are welcome. (For general education purposes only, and should not be used as legal, tax, or financial advice). Students will need to purchase their own copy of the book to participate.

2/4, 2/18, 3/4, 3/18, 4/1

6:00pm - 7:00pm

Students are expected to attend all 5 sessions

Registrations, Fees, & Information

Registrations

- Anyone 17 years and older is eligible to attend Oxford Hills/Nezinscot Adult Education. Additional requirements apply to students seeking their Diploma or HS Equivalency.
- Register early because courses fill quickly. (Courses with insufficient advance enrollment will be canceled.)
- Register by mail or online anytime before a class begins. Our office is open for walk-in registrations.
- Fees may be paid online by credit card only. A processing fee is charged for each course registration made by credit card. This fee is non-refundable.
- Payment must accompany registration. We do not send out written confirmation on registrations you mail to us. Your canceled check is your receipt.
- Fees are listed in each description and must be paid with registration. "Materials Fees" are listed for materials that an instructor needs you to have for their class; these fees are paid directly to the instructor unless otherwise noted in the description.
- All courses have a registration fee unless otherwise noted.
- The Oxford Hills / Nezinscot Adult Education program reserves the right to alter courses scheduled and listed in this catalog to meet program needs and requirements. Proper notice will be given to registered students.

Refund Policy

- Refunds are given with 24 hour notice prior to first night of class. No refund is given after the first night of class.
- Registration fee: We will contact you if a course is canceled or already full and issue a full refund. Refunds take 2 - 3 weeks to process and are mailed to students.

Weather Cancellations

- Adult Education classes are canceled if the MSAD #17 School District cancels school due to inclement weather.
- To find out about cancellations listen to WOXO (92.7 FM), call the Adult Education office at 207-743-8842, check out our website: sad17.maineadulted.org or visit our Facebook page.

Disability Access Statement

- Oxford Hills / Nezinscot Adult Education does not discriminate on the basis of race, gender, ethnicity, religion, national origin, age, sexual orientation, or disability. To request disability accommodations, call our office 207-743-8842.
